Thank you. The time schedule is tight so set up and playing of a video is not going to be possible. However I will make sure my committee members have a link to it to review and if you testify at the committee hearing please refer to it

All the best  
Sen Roy Brown

Hi Senator Brown-- My wife and I are planning on coming to your hearing tomorrow. I have worked in Montana ER's = Billings, Missoula and Helena for 22 years. I have seen first hand how disfunctional this system is, and the wasteful spending going towards everything BUT taking care of the patient.

My wife, a nurse practitioner at the V.A., has been an unpaid advocate for health care reform for many years. She made this video which was just released last month. It lasts only 3 minutes, and I think it is quite pertinent to your hearing. Please consider showing it if you think appropriate.
